Irregolarità libere, incerte, inaspettate legano antiche e nuove sensazioni, memoria storica e modularità progettuale. La materia e la ricchezza di nuances delle finiture lucide, rustiche e satinare hanno reso e rendono questa collezione adatta ad infinite applicazione interne ed esterne. Un classico di Antiche Fornaci D'Agostino.

Free, uncertain, unexpected irregularities bind old and new sensations, historical memory and design modularity. The material and the abundance of lucid, rustic and glazed nuances made and make this collection suitable to endless internal and external applications. A classic of Antiche Fornaci D'Agostino.

idee che progettano idee che progettano idee

il progetto: creatività senza limiti

Una vasta gamma di moduli e colori fornisce infinite possibilità applicative all'estro creativo, soddisfacendo il desiderio di personalizzazione di qualsiasi ambiente abitativo. Questo è il valore aggiunto del progetto globale ideato da ANTICHE FORNACI D'AGOSTINO.

Le singole collezioni sono piccoli progetti di 3, 5, fino a 9 formati, ma tutte fanno parte di una comune e più vasta proposta, con possibilità di combinare ed interfacciare i vari moduli.

Progetto totale, versatile in cui tutto può esaltarsi producendo nuove e particolari creazioni.

Per noi creatività significa non mettere mai la parola "fine" alle idee.

A detailed architectural sketch of a building, possibly a house or a small industrial structure, rendered in black ink on a light-colored background. The drawing shows various levels, terraces, and structural elements. A red rectangular box is drawn over a portion of the sketch, specifically highlighting a section of the building's facade and roofline. The sketch includes some handwritten numbers like '52', '51', and '8' near the bottom right, and a faint '100 M 7' at the top. A black pen or pencil is visible in the upper right corner, resting on the drawing.

A wide range of shapes and colours allows a lot of solutions to the creative inspiration, meeting the desire of personalization of any living space. This is an additional value of the global project created by "Antiche Fornaci D'Agostino". Each collections are little projects of 3, 5 formats to 9, but all these are part of a common and vast project, with the possibility to combine and interface the various forms. It is a total project, in which all becomes shining producing new and personal creations. For us creativity means to not stop the flux of ideas
